SEN Consultation Questions

What are your views on the operational changes being suggested in this consultation document?

Please use the text box below to provide your answer

The Council is not proposing to make changes to pre 5 provision or to post 16 provision but is suggesting there should be a difference of approach for students aged 19 and older between those attending mainstream colleges (where the majority of students can be expected to be able to use public transport) and specialist colleges (where this may not be suitable). What are your views on this?

Please use the text box below to provide your answer

The Council wants to invest in more independent travel training for pupils with SEND to better support those pupils that could travel to school/college more independently. What are your views on this?
