

# SUTTON 2031

## PLANNING FOR OUR FUTURE

# HELP SHAPE THE VISION FOR THE NEXT 15 YEARS

## Public consultation

18 February-8 April 2016

Sutton is growing, and we need to provide the housing, jobs and infrastructure to meet local need. That means new schools; transport links; office, industrial and retail premises; and business opportunities.

We want your help in planning the Sutton of the future, of 2031. We want to know how we can encourage the quality of housing and employment space that will help our borough prosper, whilst retaining the suburban character of Sutton, and all the things we love about our area.

Sutton 2031 is the way you can help us shape the key planning policies for the borough.

There are three main elements to Sutton 2031:

- **The Local Plan Issues and Preferred Option Document** – the key principles for future development in the borough.
- **Draft Town Centre Masterplan** - the vision to boost the vibrancy and cultural offer of Sutton town centre and secure its future as a destination of choice.
- **Draft London Cancer Hub Development Framework** - the plans to create a world class campus that will establish Sutton as a centre of excellence for cancer research and treatment alongside a new school that will provide high quality careers and attract investment into Sutton.

## HAVE YOUR SAY

To take part in the consultation or find out more visit [www.sutton.gov.uk/sutton2031](http://www.sutton.gov.uk/sutton2031) or come to one of our events where you can meet with the planners – please turn over for dates and venues.

# HAVE YOUR SAY EXHIBITIONS AND OPEN MEETINGS

Open meetings are formal presentations that will be followed by question and answer sessions with planners and officers, if attending an open meeting it is best to attend the whole session.

Prior to all open meetings exhibitions showcasing the issues and ideas for the borough will be available for you to drop-in and view at your leisure. Planning officers will man the exhibitions and be available to answer any questions you may have.

On Saturdays we will be located in town centres across the borough, if you see us, come and say hello.
